

Limmara Kimberley  
Interior Architecture & Design Graduate

   
limmarakimberley

I am a soon-to-be graduate from the Arts University Bournemouth with a honours degree in Interior Architecture & Design. Throughout my time spent at university I have developed a passion in designing for **public, commercial and social spaces** with a strong belief that **design can alter atmospheres** and enhance user experiences.

I have project experience in all RIBA work-stages, from **surveying a site, to concept development, through to complete design proposals**. I work well under pressure and can successfully complete work within a tight deadline.

I have fine-tuned my own personal style of presentation, resulting in professional, contemporary ways of **communicating design ideas**. I have also gained knowledge within design specialisms, like exhibition design, acoustics for theatres & auditoriums, along with creating designs for Heritage listed buildings.

I hope to work on commercially focused projects within a strong design team, I aim to bring creativity and **innovative ideas** into practice, whilst expanding my knowledge & passion for interiors and architectural design.

Strengths:

Concept Design	Spatial Planning	Model Making
Presentation Skills	Research & Analysis	Problem Solving

Software Skills:

I am proficient in many creative software platforms, especially Adobe Suite & Auto-desk.
